ISBN-10: 978-1616330511

ISBN-13: 978-1616330514

Price: \$10.95

Everyday Kantor Pegasus practices solving riddles. A tricky leprechaun attempts to outsmart him by giving him a next to impossible riddle to solve. To end his clumsy ways he must solve it. Children learn the benefit of practice and to focus on their strengths.

J. Aday Kennedy and Kantor have a couple things in common. Their body's physicality is not one of their strengths. Kantor is a total klutz. Aday is paralyzed. The character and author rely on their intelligence.

Look Inside

Review

In this story of a Pegasus who is determined to change his klutzy ways, J. Aday Kennedy draws readers in with a charming and delightful story filled with characters they'll love. I look forward to the next book in the Klutzy Kantor series.
