

Research

Let's go to the library.

- Find three fiction books in the card catalogue with stories about elephants. Note the call numbers, titles, author and synopses.
- What areas of the library will you find nonfiction sources?
- Find three sources of information for the following topics:
 - Elephants
 - India
 - TataTea plantation

- An important part of writing a story (even a fictional story) is research. Write a fictional story using some of the sources you listed for the above topics. Your story can use as few as one or as many facts as you would like. Write a one to two page story and provide a list of references on a separate page.
